

SOCIETY WOMAN'S WORLD AND WORK

Folks need a lot of loving in the morning.
The day is all before, with care
The care we know, and they that
give no warning.
For love is God's own antidote for
fret.

Folks need a heap of loving at noon-
time—
In the battle lull, the moment
snatched from strife,
Half way between the waking and
the dreaming,
While bickering and worryment
are rife.

Folks hunder so for loving at the
night time.
When wearily they take them
home to rest—
At slumber song and turning-out-
the-light time.
Of all the time for loving, that's
the best.

Folks want a lot of loving every
minute—
The sympathy of others and their
smile!
Till life's end, from the moment they
begin it.
Folks need a lot of loving all the
while.

The Need of Loving by Strickland
Gillan.
